

Advancing Tomorrow's Leaders + STEM

ATLAS is a college and career symposium hosted by the MdBio Foundation, Prince George's Community College, Prince George's County Public Schools and NASA for high school juniors/seniors and college undergraduates.

ATLAS provides an important space for students to learn about the exciting career opportunities in STEM. Events such as ATLAS serve as a first step to preparing and encouraging students to further pursue their interest in STEM. Students will explore STEM careers in engineering, cybersecurity, life science, information technology and more. This event is being held as part of the [Maryland STEM Festival](#).

- Meet and network with STEM professionals
- Learn about college and education advancement opportunities
- Find paid and unpaid internships + scholarships
- Raffle prizes
- FREE lunch and snacks
- Parent/Guardian information session-learn about financial aid, colleges, potential careers for your students and more!

Registration is free but required for students, teachers and parents

REGISTER

Space is still available for exhibitors to join our Expo. Please [contact us](#) for additional details.
